

Letter of Recommendation

Date: 09-Sep-25

To Whom it may Concern

I **Bharath Kodangala**, is proud to offer my recommendation to **Jhalak Jain**, who interned with the **Information Security** team at **Tally Solutions Pvt Ltd, Bangalore**, for a duration of **2 months**. During her tenure, Jhalak made notable contributions across Vulnerability Assessment and Penetration Testing (VAPT), document drafting, research, and Governance, Risk, and Compliance (GRC) initiatives. Her work significantly supported both ongoing projects and organizational goals.

Jhalak consistently demonstrated a strong technical aptitude, quickly mastering tools and methodologies relevant to InfoSec. She gained hands-on expertise in VAPT tools such as Nessus, Nmap, Kali Linux, and Burp Suite, effectively applying these tools in identifying vulnerabilities, assessing risks, and supporting remediation efforts. Her ability to understand complex security scenarios and translate them into actionable insights was particularly impressive.

In addition to her technical skills, Jhalak displayed a keen curiosity for emerging technologies, proactively learning and applying new concepts. She is punctual, reliable, and professional, consistently meeting deadlines and maintaining high-quality work. Her analytical thinking, attention to detail, and collaborative approach make her a valuable contributor to any team.

I am confident that Jhalak Jain will excel in any academic or professional setting she chooses to pursue. I wholeheartedly recommend her for higher education programs or professional opportunities in Information Security and related domains, as she possesses the skills, dedication, and curiosity to make significant contributions.

Should you require any further information, please do not hesitate to reach out to me.

Sincerely,

Bharath Kodangala
